DETAILED ACTION***Double Patenting***

The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. See *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and, *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent is shown to be commonly owned with this application. See 37 CFR 1.130(b).

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

Claims 35, 40-49, 56 and 58-60 are rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 16-19, 21, and 23-32 of U.S. Patent No. 6,251,135 B1. Although the conflicting claims are not identical, they are not patentably distinct from each other because claims 16-19, 21, and 23-32 of '135 anticipate the claims cited above.

Claims 35-39, 50-52, 56-57 and 61-62 are rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 34, 2, 6, 11 and 20-21 of U.S. Patent No. 6,340,367. Although the conflicting claims are not identical, they are not patentably distinct from each other because claims 34, 2, 6, 11 and 20-21 of '367 anticipate the claims cited above. Please note that a "radiopaque portion" is inherently visible upon fluoroscopic visualization. Furthermore, the use of

fluoroscopy in aiding the deployment of an endoprosthesis is well known to ones of ordinary skill in the art.

Allowable Subject Matter

Claim 63 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Claims 53-55 are allowed over prior art of record. The prior art does not teach or make obvious the claimed temporary marker comprising a radiopaque elongate strand of the claimed dimensions that is removable by pulling its proximal portion.

Conclusion
